Dynamic Programming :-

Fibonacci with Recursion
 $O(2^n)$

Fibonacci with DP
 $(2n) \approx O(n)$

0 1 1 2 3 5 8

Two types of DP :-

↳ Memoization - Recursive

↳ Tabulation - Iterative

FibTab :- $n=6$

0	1	2	3	4	5	6	7
0	1	1	2	3	5	8	13

=) DP

<https://leetcode.com/problems/minimum-path-sum> - Min Path Sum

0 1 2

0	1	3	1
1	1	5	1
2	4	2	1

	0	1	2
0	7	6	3
1	8	7	2
2	7	3	1

1	3	1
1	5	1
4	2	1
